

# URBAN FOOD SYSTEMS SYMPOSIUM

*Nourishing Cities in a Changing Climate*

## Jill Clark, Ph.D. Invited Presenter

Professor Clark's research is agrifood system policy and practice, centering on community and state governance of food systems, the policy process, and community engagement. Primarily using a community-based research approach, she works with local communities across the United States.

Currently, Professor Clark provides statewide leadership for the Ohio Network of Food Policy Councils and national leadership as an advisory board member for Johns Hopkins Food Policy Network.

Professor Clark has a Ph.D. in geography from The Ohio State University and a master's degree from the Nelson Institute for Environmental Studies at the University of Wisconsin.
