

# URBAN FOOD SYSTEMS SYMPOSIUM

*Nourishing Cities in a Changing Climate*

## Dr. Charles Rice Invited Presenter

Dr. Rice grew up in Yorkville, Illinois which had a population of about 1,500 people at the time. Throughout the years he became involved in many aspects of 4-H.

Rice received his B.S. in Geography from Northern Illinois University. He then completed his Masters and Doctorate from the University of Kentucky.

In 1988, Rice joined the Agronomy faculty at K-State. Rice specializes in soil microbiology, carbon cycling, and climate change. His extensive research has allowed him to gain helpful insight in order to help his students.

Dr. Rice spends his remaining free time relaxing by doing the things that he enjoys most, reading and gardening.
